Who Are We?

France Water Team (FWT) is a worldwide reference brand and network for French water sector companies to improve their economic performances in a dynamic and growing international environment.

Our offer for international development, a key entry point to a French network to help :

- Identifying potential partners and projects
- Setting-up collaboration on specific project (R&D, innovation,...)
- Finding the relevant product and service for your project : engineering firms, instrumentation, manufacturers, suppliers, research and training centers
